## WHY WE STAND OUT??????????

- ❖ Kane-Em is the first company introduced compression molded closures in Ghana with state-of-the-art technology SACMI line in the year of 2013.
- ❖ Proudly introduced our first single piece closure for CSD for ECCBC in Ghana. Brought down the weight from 2.8g (two piece closure) to 2.15g (CSD8-Single Piece closure)
- ❖ An enriched dedicated technical team to provide technical support to its customers. Our technical team extended full fledged support to ECCBC for the transformation of two piece closure to single piece closure.
- ❖ Introduced lightest possible weight for CSD in Ghana which is 1.95g.

## WHY WE STAND OUT???????????

- ❖ Wide range of closures to meet the requirement of our all types of customers. Currently we uphold our strong presence in the market with 11 variety of compression molded closures.
- ❖ We are the largest manufactures of compression molded closures in West africa with 6 SACMI lines. Our Annual production capacity is 2.75 billion.
- ❖ As a compliment to our effort to meet the food safety requirement , Company certified with FSSC 22000 and ISO22000
- ❖ Our Closures are produced in a controlled atmosphere supported with clean room.

## WORLD WITHOUT WASTE-OUR INITIATIVE...

- ❖ As a reputed company we are committed and responsible to society and environment.
- ❖ Our vision is ZERO DEFECT ZERO EFFECT manufacturing facility which envisage defects free products with least possible resources and no effects to environment. To fulfill our vision we make sure.....
- ✓ State of the art technology machine is used wherever possible which will ensure zero or near to it defective products and least resources consumed like water, electricity etc along with high production capacity.

## WORLD WITHOUT WASTE-OUR INITIATIVE...

- ✓ No defective product will make sure no impact to environment as post industrial waste.
- ✓ We convert our post industrial waste to other value added products.
- ✓ We have converted 50% of total post industrial waste to other value added products (Non food contact products) in the year 2019 as inhouse and rest are converted through external agency.
- ✓ Our goal to convert post industrial waste to value added product by using inhouse facility for the current year is 70% and by 2025 to achieve 100%

## OUR FUTURE PLAN

- ❖ Installation of new 48 cavity compression molding line (SACMI) for closures with an installed capacity of 2.9 million closures per day. Time line- Before November 2020
- ❖ Introduction of new AB series of 29/25 closure with 48 cavity (AB29W21). The design is coke approved and lowest possible weight available in the market produced by compression molding technology .
- ❖ Introduction of 11.6 g, 72 cavity preform mold suitable to husky machine with 29mm neck finish. Average installed production capacity will be 850K preform per day. Time Line- Before December 2020

## OUR FUTURE PLAN

- ❖ Introduction of 21.7 g, 72 cavity preform mold suitable to husky machine with 28mm/1881 neck finish. Average installed production capacity will be 500K preform a day. Time Line- Before March 2021
- ❖ Introduction of 15.5 g, 72 cavity preform mold suitable to IPS (SACMI) machine with 28mm/1881 neck finish. Average installed production capacity will be 590K preform a day. Time Line- Before October 2021
- ❖ Installation of new six cavity PET stretch blow molding machine with an installed capacity of 150K bottles a day
- ❖ We have earmarked a total amount of 6million USD on CAPEX for

**COVERING  
AFRICA WITH  
K-CAPS**

As part of our relentless efforts to totally satisfy its consumers, Kane-Em has now concentrated on the manufacturing and sales of plastic caps and closures for beverage, food and non-food markets. These closures seek to enhance our customers' products, thereby encouraging end-users to demand the product and reinforce repeat purchase. In order to continually satisfy our customers, our duty is that they should not encounter technical or economic problems when integrating our closures with their products. With Kane-Em, quality is never compromised.
