WE HELP ITALIAN COMPANIES GROW TROUGHOUT THE WORLD AND IN ITALY

We have supported companies' competitiveness since 1977

SACE is the Italian Export Credit Agency, subsidiary of The Ministry of Economic and Finance, specializing in supporting businesses and the national economy through a wide range of tools and solutions to foster competitiveness in Italy and worldwide. For over forty years, SACE has been the reference partner for Italian companies that export and grow on foreign markets. It also assists the banking system in facilitating companies' access to credit with its financial guarantees, with a role enhanced by the extraordinary measures provided for by the Liquidity Decree. Recent government measures have broadened the scope of SACE's mandate beyond its traditional support for exporting and internationalization by adding important elements such as support for investments on the domestic market and guarantees for green projects in the Italian Green New Deal framework. This new mandate consolidates SACE's role as an institution committed to promoting the Italian economy. With a portfolio of insured operations and guaranteed investments of €166 billion, SACE serves over 26 thousand companies, especially SMEs, supporting their growth in Italy and in around 200 foreign markets.
